

Puyallup Tribal Housing Department

"A DRUG & ALCOHOL FREE HOUSING PROGRAM"

ANNUAL INSPECTIONS!!!

It's that time of year again for annual inspections. Your RS Specialist will be contacting you to schedule your inspection. Please make sure that we get all maintenance requests in as soon as possible to make sure your inspections go smoothly. Please contact your RS Specialist if you have any questions or concerns.

CASH IN DROP BOX

Please make sure that all cash rent payments are made directly to the Housing department. No cash payments should be left in the drop box!!! We also offer online payments for added security. The drop box is used by multiple departments for a variety of payments. To ensure your payment is applied correctly, hand it directly to a housing employee and we will provide you with a receipt.

PTHD CLOSED

SEPTEMBER 1ST & 20TH @ NOON, SEPTEMBER 4TH, SEPTEMBER 8TH CLOSED

Puyallup Tribal Housing will be closed in observance of Labor Day, and Fishing Wars Recognition Day ☺

COMPUTER LAB @ NE GYM!!!

PTHD has opened a computer lab for all residents at the Northeast Gym. This is a great resource for any one that does not have a computer in their home. This will allow for residents to do a variety of things such as fill out applications, send emails, and scan documents. Our younger residents can use them to work on homework or play learning games. Come check out this new opportunity!!

Computer lab hours to be announced

PAYMENT PROCESS:

All rent payments made to Puyallup Tribal Housing are distributed in a specific order to cover all charges to the account. Payments are first applied to any work orders that are outstanding. The late fees are then paid, followed by any payback agreements, and then the rent that is owed. This is the process for every payment submitted. Please keep this in mind when budgeting for your rent each month. Knowing this process may help with any confusion. Please contact your RS for all payment concerns and questions that you may have.

LICE

SEE SOMETHING...SAY SOMETHING...

Every month we will focus on specific pests that plague residents here in the Northwest. This month we will focus on Lice. With school starting children and adults may be at a higher risk of contracting lice. Here are a couple tips if/when this happens.

Lice can be found on the head of humans. They will be located behind the ears and around the neckline in the back of the head. Head lice are more active at night. They feed on the blood of the host and will live close to the scalp to do so.

Lice are mostly found in child care and elementary school settings, as well as the household of infested children. Head lice cannot hop or fly. They move by crawling but can move fairly quickly. They will spread by direct contact with an infested persons hair. It is uncommon for them to be passed through clothing or other personal items.

To get rid if lice a specific lice shampoo must be applied to kill the adult lice and the eggs. A couple of treatments may be needed if the individual has long hair. You will also need to wash all clothing and bedding in hot water as well as vacuum all rooms.

MAINTENANCE CORNER

We would like to focus on oven cleaning this month. Some residents may have a self-cleaning oven while others may have to clean it manually. Here is a link to properly and easily clean your oven; <https://www.homedepot.com/c/ah/how-to-clean-an-oven/9ba683603be9fa5395fab90bfadf6fb> . There are also DIY information on making your own oven cleaner if the chemical oven cleaners cause you to worry. Keeping a clean oven will increase the performance and longevity of your appliance. Please make sure you are reporting any service or maintenance issues as soon as possible to your RS or Maintenance manager directly. We will try to get someone out to address the issue as soon as available.
